

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1**Growth hormone**

COMP

You should be able to: Describe the direct and insulin like growth factor mediated actions of growth hormone and predict the result of excess or deficiency before and after epiphyseal closure.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

2**Thyroid hormone**

COMP

You should be able to: Trace thyroid hormone synthesis, state the metabolic actions of T3 and T4, and match hyperthyroid and hypothyroid signs to the underlying rate of metabolism.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

3**Cortisol and the stress response**

COMP

You should be able to: Describe the metabolic, immune, and cardiovascular actions of cortisol and explain the consequences of chronic elevation.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

4**Pancreatic islet hormones**

COMP

You should be able to: Compare insulin and glucagon by stimulus and by effect on liver glycogen and on plasma glucose and identify the islet cell that secretes each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

5**Diabetes mellitus**

COMP

You should be able to: Distinguish type 1 from type 2 diabetes by mechanism and explain how untreated hyperglycemia produces polyuria and ketoacidosis.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

6**Glucose tolerance testing**

COMP

You should be able to: Plot a glucose tolerance curve from measured or simulated data and distinguish a normal response from an impaired one.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

7**Four digestive processes**

You should be able to: Distinguish motility, secretion, digestion, and absorption and identify where in the tract each dominates.

COMP

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

8**Motility patterns**

You should be able to: Compare peristalsis, segmentation, and the migrating motor complex by pattern and purpose.

COMP

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

9**Neural and hormonal regulation**

COMP

You should be able to: Explain short and long reflex control by the enteric nervous system and match gastrin, secretin, cholecystokinin, and glucose dependent insulinotropic peptide to their stimulus and action.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

10**Phases of digestive control**

COMP

You should be able to: Describe the cephalic, gastric, and intestinal phases and state the dominant control mechanism in each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

11**Gastric secretion and mucosal protection**

COMP

You should be able to: Trace the production of hydrochloric acid by the parietal cell and explain how the mucosal barrier protects the stomach and how ulcers develop when it fails.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

12**Pancreatic and biliary secretion**

COMP

You should be able to: State the components of pancreatic juice and bile and explain how bicarbonate neutralizes chyme and how bile salts emulsify fat.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

13**Carbohydrate and protein digestion and absorption**

COMP

You should be able to: Trace a starch and a protein from mouth to bloodstream naming the enzymes at each step and the transport mechanism at the brush border.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

14**Lipid digestion and absorption**

COMP

You should be able to: Trace a triglyceride through emulsification, lipase action, micelle formation, and chylomicron packaging to the lymphatic route and explain why fat takes a different path than glucose.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

15**Liver function and enterohepatic circulation**

COMP

You should be able to: State the metabolic, storage, and detoxification functions of the liver and trace the enterohepatic circulation of bile salts.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

16**Large intestine and microbiome**

COMP

You should be able to: Describe water and electrolyte absorption in the colon, the contribution of the microbiome, and the defecation reflex.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

17**Digestive enzyme experiment**

COMP

You should be able to: Test the effect of pH, temperature, and substrate on a digestive enzyme and relate the results to the region of the tract where that enzyme works.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

18**Absorptive state**

COMP

You should be able to: Describe the fate of glucose, amino acids, and fats in the absorptive state and identify insulin as the dominant hormone.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

19**Postabsorptive state**

COMP

You should be able to: Explain how glycogenolysis, gluconeogenesis, lipolysis, and ketogenesis maintain plasma glucose during fasting and name the hormones that drive each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

20**Integrated glucose regulation**

COMP

You should be able to: Predict the hormonal and metabolic response to a carbohydrate meal and to a prolonged fast and explain how plasma glucose stays within range in both.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

21**Energy balance and metabolic rate**

COMP

You should be able to: Define basal metabolic rate, state the factors that raise and lower it, and explain how indirect calorimetry estimates energy expenditure.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

22**Thermoregulation**

COMP

You should be able to: Trace the negative feedback response to heat and to cold through the hypothalamus and the effectors and explain the mechanism of fever.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

23**Metabolic rate measurement**

COMP

You should be able to: Estimate metabolic rate from measured or simulated oxygen consumption and compare resting values with values after activity.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

Pass 1 from the book, before the video. Pass 2 in the second colour, after it, in the same boxes.

Dr. Sharilyn Rennie
