

1

COMP

G protein coupled receptors

You should be able to: Trace a G protein coupled receptor pathway from ligand binding through the G protein and amplifier enzyme to the second messenger and the cellular response.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

2

Second messengers

COMP

You should be able to: Identify cyclic AMP, IP3, diacylglycerol, and calcium as second messengers and state the enzyme that generates each and one target it activates.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

3

COMP

Catalytic receptors and intracellular receptors

You should be able to: Compare a receptor enzyme such as the insulin receptor with an intracellular steroid receptor by mechanism and by time course of the response.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

4

COMP

Signal termination

You should be able to: Name three mechanisms that end a chemical signal and explain why a signal that cannot be terminated produces pathology.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

5

COMP

Dose response relationships

You should be able to: Plot a dose response curve, identify threshold, maximal response, and EC50, and compare a full agonist with a partial agonist on the same axes.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

6

COMP

Hormone classes

You should be able to: Classify hormones as peptide, steroid, or amine and compare the three by synthesis, storage, and receptor location.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

7

COMP

Hormone transport and half life

You should be able to: Explain how protein binding in plasma affects the free hormone fraction and the half life and predict which hormone class circulates bound.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

8

COMP

Hormone receptors and target response

You should be able to: Explain why one hormone can produce different responses in different tissues and relate receptor number to target cell sensitivity.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

9

Hormone interactions

COMP

You should be able to: Define synergism, permissiveness, and antagonism and identify each in a described hormone pair.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

10

COMP

Control of hormone release

You should be able to: Classify a hormone stimulus as humoral, neural, or hormonal and trace an example of each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

11

COMP

Hypothalamic pituitary axes

You should be able to: Trace a three tier axis from hypothalamic releasing hormone through the anterior pituitary trophic hormone to the peripheral gland and place the long and short loop negative feedback.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

12

COMP

Primary and secondary endocrine disorders

You should be able to: Use hormone levels at two tiers of an axis to classify a disorder as primary or secondary and as hypersecretion or hyposecretion.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

13

COMP

Posterior pituitary hormones

You should be able to: Explain why the posterior pituitary is neural tissue and state the stimulus and target action of antidiuretic hormone and oxytocin.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

14

COMP

Hormone assay

You should be able to: Run or simulate an immunoassay for a hormone and use the standard curve to determine an unknown concentration.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*
