

1

Plasma and blood functions

COMP

You should be able to: State the three functional categories of blood, transport, regulation, and protection, and name the major plasma proteins and the function of each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

2

COMP

Hematocrit and formed elements

You should be able to: Define hematocrit and interpret a value as normal or abnormal in the context of anemia and dehydration.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

3

COMP

Erythrocyte structure and hemoglobin

You should be able to: Relate the biconcave shape and absent nucleus of the erythrocyte to its function and describe how the four heme groups of hemoglobin carry oxygen.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

4

COMP

Erythropoiesis and its regulation

You should be able to: Trace the erythropoietin negative feedback loop from tissue hypoxia to increased red cell production and state the nutrients required.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

5

COMP

Red cell destruction and bilirubin

You should be able to: Trace the fate of hemoglobin after red cell breakdown and explain how failure to clear bilirubin produces jaundice.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

6

Leukocytes

COMP

You should be able to: Match neutrophils, lymphocytes, monocytes, eosinophils, and basophils to their defensive function and to the condition that raises each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

7

COMP

Hemostasis

You should be able to: Order the three phases of hemostasis, vascular spasm, platelet plug formation, and coagulation, and identify the role of von Willebrand factor and thromboxane.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

8

Coagulation cascade

COMP

You should be able to: Compare the intrinsic and extrinsic pathways to the common pathway and identify the roles of thrombin, fibrin, calcium, and vitamin K.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

9

COMP

Clot limitation and fibrinolysis

You should be able to: Explain how anticoagulants and plasmin limit and remove a clot and predict the effect of a drug that blocks vitamin K or platelet aggregation.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

10

COMP

ABO and Rh blood types

You should be able to: Predict agglutination for any donor and recipient ABO and Rh combination and explain the mechanism of hemolytic disease of the newborn.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

11

COMP

Hematocrit and hemoglobin determination

You should be able to: Determine hematocrit and hemoglobin from a sample or simulation and evaluate the result against reference ranges.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

12

COMP

Blood typing

You should be able to: Perform simulated ABO and Rh typing and determine compatible donor types for the result obtained.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

13

COMP

Lymphatic return

You should be able to: State the volume of fluid the lymphatic system returns each day and trace lymph from an interstitial space to the subclavian vein.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

14

COMP

Innate defenses

You should be able to: Describe the physical, chemical, and cellular innate defenses and explain what makes them nonspecific and immediate.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

15

COMP

Inflammation and fever

You should be able to: Order the events of the inflammatory response and explain how the cardinal signs arise and why fever aids defense.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

16

COMP

Adaptive immunity

You should be able to: Compare humoral and cell mediated immunity by the cell responsible, the target, and the mechanism of elimination.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT

a picture, not a paragraph

2 · LABEL EVERY PART

lines out to the drawing

3 · WHAT HAPPENS, IN ORDER

boxes and arrows, step to step

4 · WHAT BREAKS IF THIS FAILS

follow the arrows to what stops

17

COMP

Antibody structure and function

You should be able to: Relate antibody structure to antigen binding and name the mechanisms by which antibodies neutralize or mark a target.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____ ALSO A LAB SKILL

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

18

COMP

Immune memory and immunization

You should be able to: Compare the primary and secondary antibody responses and explain how active and passive immunization produce protection.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*

19

COMP

Immune dysfunction

You should be able to: Classify allergy, autoimmunity, and immunodeficiency by what the immune system is doing wrong in each.

PROMPT ☐ A ☐ B PASS 1 COLOUR _____ PASS 2 COLOUR _____

Every one of these boxes is **drawn**. If you need words, they go inside little boxes with arrows between them, in the order things happen. Sentences running across the page do not count.

1 · DRAW IT*a picture, not a paragraph***2 · LABEL EVERY PART***lines out to the drawing***3 · WHAT HAPPENS, IN ORDER***boxes and arrows, step to step***4 · WHAT BREAKS IF THIS FAILS***follow the arrows to what stops*
